PROFILE

Self-taught web developer, great passion for web apps that work like magic, anywhere. Adaptive person, and always eager to embark on a new challenge, or a modern technology to learn. React | MongoDB | NodeJS (Express) is my current stack, using NextJS for the intuitive App Router.

EXPERIENCE

Freelance Web Developer

2024 – Present

Currently developing a specific gift-card (Inventory) management app for a client in Baghdad, which will be used by 117 clients. Using: NextJS | Chakra UI | NodeJS (Express) | MongoDB (Atlas) | ExpressSessions | Custom Middleware | PassportJS (Being implemented) | WebSocket (Planned feature)

Junior Content Editor | VML

2023 – Present

- Managing Client's website (Ford EU).
- Updating web pages according to pre-existing design systems.
- Coordinating with the client for future updates.
- SEO optimizations with the client's consultancy.
